Dear Jeff:

I wanted to thank you for taking the time to come to the Water Survey on June 13, 1988, and talk to us about the contamination in the Sauget area. The information you provided was extremely valuable, particularly with regard to the safety of the Water Survey staff who will be involved in the construction of monitoring wells near the East St. Louis area.

I also want to thank you for the documents you sent to us. We will make copies of the Geraghty and Miller reports and return them to you in a few weeks. Do you want us to also return the Ecology and Environment reports to you?

I have enclosed a copy of John Shafer's report describing the ground-water sampling he and Al Wehrmann did in the Metro East region in 1987.

Sincerely,

*Kenneth R. Rehfeldt*
